

Indoor and Outdoor Rated LED Step Lights

Juno LED step lights provide an energy-efficient solution for low-level lighting in indoor or outdoor applications. Consuming just 6-watts of power, these LED step lights use far less energy than the comparable incandescent and fluorescent versions and are compatible with standard trims.

Indoor-Rated LED Step/Night Light

The indoor LED Step/Night Light is rated for use in wall- or ceiling-mount, indoor drywall applications. Two trims are available: one featuring a diffuse-glass lens for even light distribution; the other with louvers that reduce glare and provide a softer lighting effect.

- Dedicated LED housing ships complete with LED light engine and 120-volt, non-dimming driver
- Recessed housing is IC-Rated and can be completely covered with insulation
- Real Nail® 3 bar hanger system provides quick and easy installation
- 3000K or 4000K color temperature available

Ordering Information

Housing and trim can be ordered together or separate, but will always ship separate.

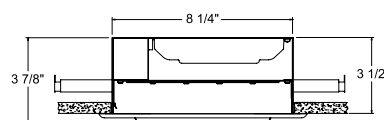

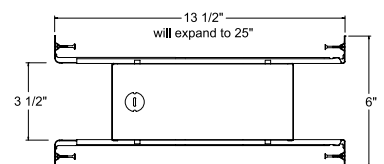

Example: IC113LED 30K 120

Example (Trim): 840 WH

Example (Together): IC113LED 30K 120 840 WH

Series	Color Temperature	Voltage	Trims	Trim Finish
IC113LED 	30K 3000K	120 120V	104 Diffuse Glass Lens Step Light Trim 	WH White
	40K 4000K			
			840 Angled Louvers Step Light Trim 	

Dimensions:

Wall Cutout: 8 3/4" x 3 3/4"

Trim Size: 9 9/16" L x 4 7/8" H

Night Lights/Step Lights

The Indoor Incandescent Step/Night Light is rated for use in indoor wall- or ceiling-mount drywall applications. Trim offering includes diffuse glass lens and louver designs.

- Provided with medium base porcelain socket
- Recessed housing is IC rated and can be completely covered with insulation
- Rated for 25W A19 lamp in insulated IC applications, or 40W A19 lamp in Non-IC applications
- Real Nail® 3 Bar Hangers for quick housing placement
