

SELF-REGULATING, CUT-TO-LENGTH CABLE

TSR™ self-regulating cable is normally used in regular commercial applications. Use TSR cables to maintain liquids in pipes at a constant temperature to prevent degradation of the liquid or to maintain viscosity for flow conditions. Parallel resistance, cut-to-length cable is provided on bulk spools. 120, 208, 240 and 277 Vac applications. TSR cables are available in circuit lengths up to 650 feet (TSR32J) and wattages up to 10 watts per foot (TSR101J, TSR102J). TSR Cables are UL Listed, CSA Certified, and Factory Mutual Approved for ordinary locations when used with EasyHeat accessories. They are Factory Mutual Approved for use in Class I, Division 2 locations when used with approved termination accessories.
