

# COMMERCIAL AND INDUSTRIAL GRADE RECEPTACLES

## PlugTail® Connectors & Tester

**PTRA6STR    PTRA6STRBP    PTRA6STRG    PTTESTER**

### Features

- Ultrasonically welded polycarbonate connector housing secures terminations and conductors in a UL Listed, finger safe housing.
- Large crimped and welded brass contacts snugly terminate on device blade terminals.
- Pre-stripped connector leads fasten to conductors, easier than standard pigtails.
- Available in any wire length up to 25 inches, use Configurable Solutions to order.
- Audible snapping latch assures connection, allows release.

### PT TESTER

- Ensures proper connections and power presence at both rough-in and device-out stages during P&S PlugTail Device installation.
- Fast, easy identification of circuit connections.
- Easy-to-see indicator lights.
- Sturdy construction for long-term dependability.
- Helps prevent call backs.
- Ensures proper wiring.
