

Catamount®

NEW!

Step-Down Butt Splices

Splice Different Sized Wires Together!

Whether you need to connect two wires to one wire or a large wire to a small wire, new Catamount® Step-Down Butt Splices are the answer. Choose among these copper reducing splices in a variety of sizes to meet countless wiring needs and provide a reliable connection every time. Their user-friendly color-coded insulator rings mean you'll never find yourself wondering which end of the splice accepts which size wire!

- Tubular copper construction prevents barrel separation during crimping and provides good conductivity
- Chamfered barrel enables easy funneling of copper strands into splice barrel
- Expanded entry accommodates larger/thicker wiring insulation
- Color-coded insulator rings make it easy to identify the wire size capacity of each end of the splice
- Wide range of sizes to meet a variety of splicing needs
- UL® Listed

Typical OEM/MRO Applications:

- Step down from two wires to one wire
- Splice existing wiring to auxiliary equipment with different sized wire
- Retrofit existing equipment to new equipment
- Connect power wiring to control wiring

Specifications

Insulator: Vinyl (PVC)
 Terminal: Tin-plated copper alloy
 Temperature rating: 75° C max.
 Electrical rating: 600V
 Flammability rating: UL94V0
